

Job Advert

Technical/Implementation Analyst

Exeter

Hybrid working environment

Full Time, Permanent, 39 hours per week over 5 days

£35,000.00 - £38,000.00 per annum depending on experience

About the Role

We are recruiting an experienced Technical Implementation Analyst to join a successful team of technical experts who are passionate about achieving great things.

The role reports directly to the Senior Delivery Manager who is focused to achieve efficiencies and quality.

As a product expert with a keen eye for detail and exemplary communication skills you will use your technical skills to deliver project work for new and existing clients. Your core responsibilities will include:

- New Oneserve implementations
- Integration builds with 3rd party systems
- Delivering Client requested work & changes to existing implementations
- Performing customer user training
- Writing and maintaining documentation
- Providing product knowledge and support to internal Oneserve teams such as Sales, Support, Client Success and Product
- Challenging and assisting in the development of robust processes and structure and to be part of a customer centric team, always putting the customer first.

About You

We are an innovative, energetic Company and look for employees who demonstrate these values. We look for individuals who are creative, confident and have a happy and positive outlook in their personal and professional lives, you will have a growth mindset and are comfortable with the uncomfortable!

In addition to this and to be effective in this role, there are a number of behaviours that will need to be continually demonstrated and championed:

- You will enjoy working with customers and building relationships. Your passion for detail and problem solving along with your quest for continuous improvement will subsequently deliver excellent and innovative projects. In addition to this, you will also be:
- An excellent communicator with strong listening skills
- Able to work to clear deadlines and have a sense of priority
- A positive, confident, enthusiastic person with a polite and friendly manner
- Flexible and quick thinking
- Calm under pressure
- Success driven
- Naturally curious with the confidence to liaise with your colleagues to solve user queries
- Keen to learn, enabling you to quickly become a product expert and continually improve your knowledge of Oneserve

About Your Experience

To succeed in the role of Technical/Implementation Analyst you will have some experience demonstrating as many of the below criteria as possible. Beyond the essentials listed below, the right personality/outlook is vital to our recruitment decision. We welcome creative applications - impress us!

Essential

- A broad understanding of SQL with experience in a commercial environment
- Strong problem-solving skills
- Confident in customer and internal stakeholder relationships
- Initiative to learn quickly on the job

Desirable

- Experience in using ETL tools such as Talend
- Experience in working with RESTful API
- Experience in working with technologies such as XML, XSLT & HTML
- Experience in the Field Management / Housing sector
- Experience with delivering user training
- Experience of working in AWS environment

About Us
